Subject: Thank you

Dear Kimberle,

I want to thank you for doing a beautiful job with the recycling/paper making presentation. You are my hero! My own children went home and each made a cereal box notebook. You have made an imprint in our house and I hope you feel good about that. I think what you do and how well you do it is a wonderful thing to witness and an exciting mission to become a part of. Thank you for the sincere care and the patience that you bring with you - it is noticed and valued here!

We hope you came again soon and have a super terrific day!

Much love from your friends at the Salvation Army Youth Center!

Nikki
