At the Monterey County Fair

Apply at www.montereycountyfair.com

“Competitive Exhibits” by July 20th.

REGISTER with kherring@mrwmd.org

Workshops are free to MRWMD residents.*

For additional information call 831-384-5313

*(MRWMD service area includes all MC coastal communities from Moss Landing to Big Sur, C.V. , the Hwy. 68 corridor and Spreckles.)

Did you know that organic materials represent one-third of what goes into the landfill? By composting your yard trimmings and food scraps you can dramatically reduce waste and at the same time produce a free nutrient rich soil amendment for your plants and garden.

The Compost Workshops will help you learn:

the basics of composting yard waste & kitchen scraps using both commercially made compost bins* and handmade designs.

The workshop will provide information on starting and maintaining a home compost bin, troubleshooting, ideas on using finished compost, and the opportunity to see working compost bins.

Vermicomposting (composting with worms) will also be introduced. It's perfect for those with a small or no yard who generate no yard waste, but wish to recycle food waste.

*Compost bins are available for purchase at MRWMD's Last Chance Mercantile
