Job Description

Position: Sr. MRF Equipment Operator  FLSA Status: Non-Exempt
Department: MRF  Bargaining Unit: Operations Unit
Reports to: MRF Supervisor, Assistant Manager  Revised: July 2017

DEFINITION
Under general supervision, incumbents in this position operate a variety of heavy equipment in support of recycling operations of the Materials Recovery Facility (MRF) to sort, separate, load, transfer, transport and haul materials for recycling and disposal; may coordinate workflows and provide lead direction to other staff members.

DISTINGUISHING CHARACTERISTICS
This series specification includes three levels of MRF Equipment Operator classification responsible for the skilled operation of various heavy equipment to process materials in the MRF. The Sr. MRF Equipment Operator is the highest level in the three-series and is responsible for all job functions of a MRF Equipment Operator I-II and the more complex tasks requiring advanced skilled and the operation of specialized equipment, requiring a Class A Commercial California Drivers’ License, as well as provide coordination of workflows and lead direction to other staff members and serves as back-up to MRF Supervisor.

ESSENTIAL FUNCTIONS
The following duties are typical of this classification and are intended only to describe the various types of work that may be performed, the level of technical complexity of the assignment(s), and are not intended to be an all-inclusive list of duties. The omission of a specific duty statement does not exclude it from the position if the work is consistent with the concept of the classification, or is similar or closely related to another duty statement to address business needs and changing business practices.

To perform this job successfully, an individual must be able to perform each essential function satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

- Operate a forklift, loaders, excavators, sweepers, roll-off trucks and tractor trailer to sort, separate, load, transfer, transport, compact and otherwise process materials for recycling and disposal.
- Performs equipment safety checks and inspections and reports equipment issues in accordance with department protocols.
- Suggest changes in working conditions and use of equipment to increase efficiency of operations.
- Operates a steam pressure washers to wash equipment and a variety of hand tools and power-driven equipment, as needed.
- Assist customers with loading materials, as needed.
- Perform maintenance assignments as assigned to support efficiency of MRF operations.
- Performing a variety of heavy physical labor and semi-skilled tasks to sort and separate retrievable materials from disposal materials, as needed.
- Perform other duties as assigned.
- Availability to work unusual shifts, weekends, evenings, holidays, and on standby status when required.
- All District positions require the employee to provide good customer service to both internal and external customers.
SUPERVISORY RESPONSIBILITIES
The incumbent in this position provides workflow coordination and lead direction to assigned and serves as back-up to MRF Supervisor.

QUALIFICATIONS

License or Certificate:
Possession of a California Commercial Driver’s License (Class A) required or ability to obtain a California Commercial Drivers’ License (Class A) within six (6) months of hire date or promotion.

Education and Experience:
High School Diploma or GED is desired. Associates Degree is desired. At least 2 years of experience operating heavy equipment. Relevant work experience may substitute for required experience, as determined by Management.

The following generally describes the knowledge and ability required to successfully perform the assigned duties.

Knowledge of:
• Methods, tools, equipment, and materials used in maintenance, repair, and construction work.
• Procedures and operational requirements for the skilled operations of the various heavy equipment used in the District’s Materials Recovery Facility.
• Safe work practices and methods.
• Operation of conveyors, belts, and shaker screens.

Ability to:
• Use hand and power tools skillfully.
• Perform heavy physical labor requiring strength, dexterity and agility.
• Operate forklift, loaders, excavators, sweepers, and roll-off trucks or other MRF heavy equipment.
