How much you will need?

The type of project and the size of your area will determine the amount of material you will need. MRWMD sells products by weight vs. cubic yard. Use the following conversion tables to help calculate approximately how much you will need or use the calculator found on MRWMD’s Green Product page at www.mrwmd.org/green-products.

<table>
<thead>
<tr>
<th>Square Footage</th>

*For estimating purposes only, actual ton to cubic yard conversion may vary.

Purchase in Bulk or By the Bag

Compost and landscape products are sold by weight at the District scales and by the bag at the Last Chance Mercantile.

Bulk Purchases at the MRWMD Scales
Monday-Friday, 7 a.m. – 4 p.m. & Sat., 8 a.m. – 4 p.m.

Purchase by the Bag (Self-Serve) at the Last Chance Mercantile
Tuesday-Saturday, 9 a.m. – 4 p.m.

Product Use & Resources

To learn more about use of products, sustainable landscape strategies and creating a Monterey Bay Friendly Landscape see:
www.mrwmd.org/green-products
www.green-gardener.org

MRWMD offers free green gardening workshops, and home compost bins and supplies for sale. See www.mrwmd.org for more information.
Wood Chips
Made from 100% recycled, untreated, unpainted construction lumber. A low cost solution for use as a mulch, ground cover around trees, weed abatement, decorative pathways, etc. Magnets remove most nails and screws (not recommended for children’s playgrounds or animal bedding). Average chip size 1-2 inches.

1 ton of wood chips = approx. 5 cubic yards

Natural Color: $50 per ton/ $4 per 2 cu. ft. bag
Terra Cotta Color: $150 per ton/ $6 per 2 cu. ft. bag

Gabilan Compost
(OMRI Listed for organic* use.)
Made from yard trimmings and agricultural by-products including mushroom compost and grape pomace, it is an excellent soil amendment for use when planting trees, shrubs and plants, and for use as mulch and top dressing. Using compost returns nutrients to the soil, improves water retention and soil fertility. Our compost is reviewed annually by the Organic Materials Review Institute (OMRI) for organic use.

1 ton of compost = approx. 1.4 cubic yards
$50 per ton/$5 per 2 cu. ft. bag

*OMRI provides an independent review of products, such as compost and fertilizers, that are intended for use in certified organic production and processing. For more info. visit www.OMRI.org

Top Soil
Made from a blend of sandy soil (40%), humus (30%) and 30% organic material, it is an excellent planting mix for lawns and gardens. 1 ton of top soil = approx. 1.4 cubic yards.

$50 per ton

Potting Soil
Made from a blend of sandy soil (20%), humus (65%), and other organic material. For use in potting new plants or repotting plants that need larger containers. Use for vegetables, herbs and other outside container gardens. Only available by the bag at the Last Chance Mercantile. $5 per 2 cu. ft. bag

Purchase Products in Bulk or By The Bag
Bulk purchases are made at the MRWMD Scales Monday-Friday, 7 a.m. - 4 p.m. & Sat., 8 a.m. - 4 p.m.
• Weigh in at MRWMD scales.
• Receive free loading services.
• Cover and secure your load.
• Weigh out. (Charge is based upon weight.)

Self-Serve Bagged Product Available at the Last Chance Mercantile Tuesday-Saturday, 9 a.m.- 4 p.m.
• Purchase your bags at the LCM Cashier.
• You will be directed to the self-serve product area to fill and load your bags.
